Python Conf++ conf.python.ru

Профессиональная конференция для Python-разработчиков

22 и 23 октября,

Москва, Инфопространство

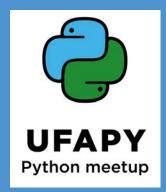

Moscow Python Conf++ выходит на новый уровень! Мы соберем под одной крышей более 600 лучших Python-программистов России. представим самые интересные доклады и конечно же, создадим комфортную и благоприятную среду для нетворкинга в лучших традициях сообщества Moscow Python при поддержке команды «Онтико», организатора всем известных HighLoad++ и РИТ++.

PiterPy Meetup meetup.piterpy.com

PiterPy Meetup is a St. Petersburg, Russia based meetup with the focus on Python and the world of IT. We are trying to keep it informal, interesting and wholesome: talks, panel discussions, meetings. It makes no difference if you are a beginner or a long-standing programming veteran. Come learn new things and socialize — it's free-to-enter!

Please note: we support <u>Berlin Code of Conduct</u> (this applies both to online and offline).

Events calendar and registration on TimePad.
